

Integrated Interactive System

Wall-Mounted Projection Screen and Markerboard

SPECIFICATION DATA

SUGGESTED SPECIFICATIONS: _____ AN3WA100(s). The Integrated Interactive Touch System will include an interactive Dry Erase Application (IDEA) Screen surface to consist of a proprietary projection surface permanently bonded to a magnetic substrate that allows use of dry erase markers, interactive stylus and finger touch interactivity. Projection surface to have a gain of 2.5 and a viewing half angle of 25 degrees. Frame will be 1" (25mm) thick with a 3/8" (9.5mm) bezel in aluminum with a white powder coat finish. Bezel thickness at the screen surface is .06" (1.5mm). The IDEA screen will be flush mounted to a wall. It will include a white height-adjustable

integrated side panel, which stores control panel, stylus (2) and markers (3), and a white marker tray that attaches anywhere along length of the screen base. The integration will include a Chief mount designed specifically for Epson ultra short throw projectors. The mount includes a quick-connect system and micro height and leveling adjustment for the projector. A finger touch unit bracket with cover and integrated cable management to connect the projector mount to the bracket cover is included protect cables and provide a clean installation.

COMPATIBILITY

Designed for use with Epson BrightLink Pro 1470Ui, 1460Ui, and 1450Ui, plus BrightLink 710Ui, 697Ui, and 696Ui.
