

Baronet

Small Electric Screen

The BARONET is a compact electric screen with the motor inside the roller. It is our most economical, and most popular motorized screen. Universal mounting brackets make installation easy whether the BARONET is mounted on a wall, suspended or recessed above the ceiling. The BARONET's small case size will fit almost any space where a motorized screen is needed. The pentagonal steel case is finished in white. Select a FIBERGLASS MATT WHITE, GLASS BEADED or HIGH CONTRAST GREY viewing surface. Three versions of the BARONET are available:

Baronet

Furnished with 3m power cord and 3-position in-line operating switch. Available with 110v or 220v motor.

Baronet/HW

Furnished with junction box and 3-position wall switch for recessed wall mounting. Available with 110v or 220v motor.

Baronet/CE

Furnished with terminal strip and white 3-position "European" style wall switch for surface mounting. 220v motor only.

System Options

- **Extra Drop**—Up to 244 cm (96") overall height, either surface color or black.
- **Black Masking Borders**—Borders are optional for AV format screens and standard for all other format screens.

Baronet/HW or CE
