EXCEED YOUR VISION

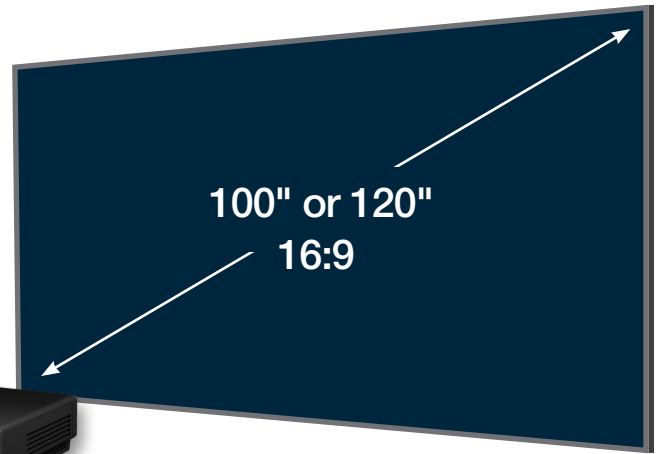

LS-500 LASER
PROJECTION TV

BE AMAZED.

Projected image simulated.

Introducing the Epson® LS-500 Laser Projection TV.

With an immersive 4K HDR¹ viewing experience, the Epson Laser Projection TV represents a new generation of digital projection — one that redefines the everyday television experience by offering a stunning picture up to 120".

Equipped with Epson's proprietary 4K PRO-UHD² 3LCD technology, the Epson Laser Projection TV combines an advanced ultra short-throw laser projector with a high-resolution ambient light-rejecting screen with unique Optical Layering Technology — to produce vivid colors and deep blacks for an exceptionally bright, colorful, and sharp picture, in virtually any viewing environment.

Whether you're watching a live sporting event, streaming your favorite series, gaming on the latest generation of consoles, or watching a blockbuster movie, the Epson Laser Projection TV will simply **amaze you.**

¹ HDR performance available with select third-party devices. For more information, see www.epson.com/hdrcompatibility

² 4K Enhancement Technology shifts each pixel to double Full HD resolution on screen. Resolution is Full HD in 3D Mode.

³ Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

⁴ Entire Rec.709 color space can be displayed in Digital Cinema Mode only.

Laser Projection TV

	100" 16:9	120" 16:9
